Result Declared

DRIVE STRUCTURE

- Resume shortlisting
- Total 4 rounds:
 - Coding round
 - Coding Interview
 - System Design Interview
 - HR interview
- All interviews and coding rounds were conducted on the same day.

CODING ROUND

- Duration: 2 hours
- Total questions: 4
- Difficulty level: 1 easy + 2 medium + 1 hard
- Test was conducted on CoderByte. Python was not allowed.
- 43 candidates shortlisted for next round
- You can practice coding problems on Leetcode and GeeksforGeeks. Consistently Participating in Leetcode weekly and biweekly contest is sufficient to clear this round.

1ST TECHNICAL INTERVIEW

- Panel-wise interview was conducted in online (google meet) as well as in offline mode.
- Topics: Data Structure & Algorithm
- Duration: 1 hour (online)
- Code in google doc, dry run, execute actual code
- Always start from brute force and then tell optimized solution
- Remember to keep earphone/headphone

2ND TECHNICAL INTERVIEW (SYSTEM DESIGN)

- This round was conducted offline
- Duration: 1.5 - 2 hrs.
- Start preparing for system design early
- There is no right answer to question. They only check your approach towards the problem.
- Total shortlisted candidates: 6

Resources

- Gaurav Sen YouTube Channel
- System Design Course for Beginners (Geek's Lesson YouTube Channel)

HR + TECHNICAL INTERVIEW

- This round was conducted in online mode. The interviewer was the CTO of the company.
- Duration: 2 hours
- Questions were asked on the concepts like CPU Scheduling algorithms, CDN, Caching, APIs, etc
- Total Selected Students: 3

GENERAL TIPS

- Consider interview as discussion not viva. Always explain your thought process.
- At the end of the interview, always ask a question whenever given a chance.
- Present yourself formally
- Prepare everything mentioned in your resume.
- Eat something whenever you get a break.
- Be honest. Don't fake answers.
- Give Mock Interviews.
