Leetcode Easy questions

Reverse an Array

Divisible by 5 matrix

66 students were shortlisted for the interviews (declared on 30<sup>th</sup> August, 2023)

## 2. Interview

Pre-placement talk for selected students was conducted at 10:00 am on the same day (1<sup>st</sup> September, 2023)

Interviews began at 12:30pm

Shortlisted students were divided into 7 panels.

- What was your take from the PPT and what would you improve in it?
- The interview was entirely based on the resume, starting from CGPA, Internship experience, Projects, hobbies.
- Keywords in the resume will be questions.
- Specific questions about the language you chose to work in and why, also will you be comfortable working with any other languages (in my case I work in python and I was asked if I would be comfortable with Java)
- Advantages and disadvantages of the language you code in.
- Hackathon details, your contributions and how did the team manage to work things out.
- Any Questions? (I asked one)

On the same day, the results were declared on the stage at around 5:30pm  
29 students were selected.
