[Training cost of 1 Lac to be returned if the employee resigns before completion of 24 months - applicable to both B.E & MCA]

Office Location: Andheri East, Mumbai

Mode of drive : Online (Using Mettle and Google Meet)

Rounds:

1. Aptitude: Questions on Quants, verbal, DI, LR and a non skippable coding test on mettle. Difficulty of the questions was very easy if you had a bit of practice. The answer to the coding question was a 2 liner.
2. Interview: Introduce yourself. Some counter questions based on what you answer. Questions were asked on C++(my language was C++), SQL, and DS. The questions were based just around the basics. Eg: for me question was to find smallest element in array
3. Questions Asked:
 1. What is oops?
 - >> Explain Classes, objects & all the 4 pillars with e.g.
 2. types of inheritance
 3. abstract class vs interfaces

4. joins in sql

0. TECH/HR:

this round for me was little bit of hilarious, HR only asked me 1 question-
"What is the most awkward thing you've ever done?"

I answered this question in the stupidest way and HR looked not satisfied. But finally I was selected.

This round lasted for 2 mins and the tech round was also around 20-25 mins. One thing to say- Just keep a smile on your face during the whole interview, its impact is way more than you can imagine.

For any queries you can contact me.
