Abh Tk bas Gyan Diya.....

Abhi Actual tips.....

1. Sabhi companies mai apply karo , sometimes it happens that company confusing job description bhejthi hai aur apan usko misinterpret karke apply hi nahi karteh.
2. Overleaf / MS word pe jao Ache se Resume banao, On campus pe ATS wagere kuch nahi rehtha
3. Jo actual mai life mai kiya hai wohi dalo resume mai. Don't add fake things to it.
4. Jo add kiya hai projects and all uske bare mai enough knowledge rakho like project mai konsa algo use kiya hai, woh kyu use kiya usse kya result aaya
5. Different job role ke liye different resume ready rakho
6. Aptitude karna chalu karo abhi se, Chat GPT, Gemini se kuch nahi hone wala
7. KT clear hogaya rahega toh placement coordinator ko inform karo aur usko result ka copy bhej doh
8. Interview mai panic math karo, chill raho. Please revise everything one day before the interview.

- Agar pointer kaam hai placement mai nahi baith pare ho . Bhai last 2 sem hai tagdi mehnat karo improve karo. I did it. It works!
- Aisa kabhi math socho ki usko mere se kaam pointer hai phir bhi uska placement hogaya ya usko kuch aata nahi tabhi bhi uska placement hogaya. That will demotivate you more
- Mostly Companies mai array aur String level tk ka hi DSA puchthe hai so at least woh doh topic toh kar loh ache se abhi chalu karoge toh bhi ho jayega max to max november tk
- In case Oncampus nahi hua toh linkedIn and seniors ae the best place to get a job. Seniors (2-3 yrs expr) ko messages bhejo even to industry professional. Cold messaging karo . ask them for an internship first. 15 jaan ko message karoge tabh jake 1 jaan message karega
- off campus job search parallel chalu rakho
- Basic program karlo jo practical mai sikhaya tha jaise ki pattern wale, fibonaaci , etc

Performics

**THANK YOU
FOR
LISTENING!**

We wish all juniors all the best for their placement process. Don't lose hope, companies will come and go. Keep developing your skills. Find out where things are going wrong, and try to improvise them. Lastly, have faith in God
