## EDUCATION

**B.E (Information Technology)**, V.E.S.I.T [C.G.P.A - 8.86 (Relative) Till 6th sem] 2021 – 2025

**11th and 12th CBSE**, Junior College, New Horizon Scholar's School - [83.4%] 2019 – 2021

**10th CBSE**, D.A.V Public School, Thane - [84.66%] 2017 – 2019

## PROFESSIONAL EXPERIENCE

**AIML Intern,** *Xangars Infratech* 05/2024 – 08/2024
- Developed Invoicy, an AI-powered system that accelerates invoice extraction and processing by 50% and reduces costs by 35% compared to traditional methods.
- Applied OCR technology to ensure accurate data extraction from physical invoices.
- Harnessed Generative AI to provide enhanced financial insights and automate key processes.

**Frontend Developer,** *Pozhat Sustainable solutions* 12/2023 – 01/2024
- Engaged in the data collection process on the Probench platform and simultaneously created an ESG scorecard for companies based on their BRSR data.
- Contributed to the development of MELA AI chatbot using NLP.

**Java Intern,** *COEP Pune* 12/2022 – 07/2023
- Developed generic algorithms in Java to solve complex mathematics problems, providing efficient solutions.

## TECHNICAL PROJECTS

**Billwise,** *[GenAI]*
- Automates invoice processing by converting physical copies to digital format with image capture. This also tackles a key pain point for Micro, Small & Medium Enterprises (MSMEs), improving efficiency by saving hours per week on financial management tasks.
- Leverages the Gemini API to power Billy, an AI chatbot that extracts key data points and provides financial insights.

**Attendify: Automated Attendance with Facial Recognition**
- Attendify, an automated facial recognition attendance system, streamlining the process and saving educators over 15 hours monthly in administrative tasks for 100+ classrooms.
- Enhance reliability in student identification through advanced facial recognition techniques implemented with OpenCV.
- This system integrates with a SQLite database for efficient storage and retrieval of data, ensuring accuracy and accessibility.

**Deal N Steal,** [MERN]
- Developed an E-commerce platform for second hand product, using the MERN stack, facilitates the seamless interaction between buyers and sellers, allowing users to bid over second-hand items in a sustainable marketplace.

**Pizza Outlet Data Analysis,** *[MySQL]*
- Analyzed a pizza sales database to retrieve key metrics, including total orders and revenue.
- Performed advanced SQL queries to identify top-performing pizza types and calculate their revenue contributions.

## SKILLS

**Technologies :** (C, Java, Python, MySQL, MongoDB, Git, Github, Flutter, Firebase, Image processing, GenAI)
**Web Technologies :** (HTML5, CSS3, Bootstrap, React.js, Express.js, NodeJs)
**Tools :** (VS Code, Canva, Autocad, Google Workspace, Figma, Tableau)
**Soft Skills :** (Team management, Team Collaboration,Public Speaking)

## POSITION OF RESPONSIBILITY

**Music Incharge**
- Being in this position, I enhanced my public speaking skills and event management expertise.

**Placement Coordinator**
- Served as a liaison between the placement cell and students, ensuring smooth information flow and timely updates.
- Demonstrated strong organizational skills by coordinating multiple placement activities and events simultaneously.

## ACHIEVEMENTS

**1st Runner Up in HackX 2.0 Hackathon** 2024
*GDSC NMIMS, Navi Mumbai*

## HOBBIES

**Painting** (Completed elementary coursework and created over 20 canvases, exploring diverse styles and themes.)
**Guitar** (Enjoy playing guitar for relaxation and creative inspiration.)
**Badminton** (Secured third place in a district-level tournament, showcasing competitive skills and sportsmanship.)
