About Me

I am interested in leveraging technology to tackle real-world problems and make a big difference to society. I am also eager to learn and improve professionally and am open to new challenges and chances for personal and professional growth.

Education

Vivekanand Education Society's Institute of Technology

Bachelor of Engineering in Computer Engineering Overall CGPA: 9.0

May 2025

Mumbai, India

Projects

- **Hand Cricket Game** <https://github.com/ParthWande/Hand-Cricket.git>
This is a Hand Cricket game that we as kids used to play for fun implemented in Python using OpenCV and some Tkinter.
Language: Python ; IDE: Pycharm
Packages used: **Mediapipe, OpenCV, Hand Recognition**
- **Face RecognitionSystem** https://github.com/ParthWande/Face_Recognition
This is a Python script to recognize faces and store attendance and display on a simple interface made by OpenCV.
Language: **Python** ; IDE: **PyCharm**
Packages used: **OpenCV, Face Recognition**
- **Education app** <https://github.com/ParthWande/khaana-khazaana>
Gyaan Saathi is a team made flutter application to quiz students. It includes games like TicTacToe, Memory Game, match the same pictures. Teacher and Student have separate user interfaces. Teacher can assign quiz to students in real time. This was a group project which helped me to learn a lot about git.
Language: **Dart** ; IDE: **Android Studio**; FrameWork : **Flutter**; Extra: **Git**
- **Game-Hub Website** <https://game-website-plum.vercel.app>
I developed a dynamic game website featuring an interactive user interface with a responsive design. The site showcases a curated collection of games and genres. Implemented using React framework, CSS, Firebase for data fetching along with different javascript libraries.
Language: **Typescript**; IDE: **VSCODE** ; FrameWork: **React.js**

Internship

- **V.E.S.I.T**
Developed an App for a NGO that Uses LLama models and Flutter to make a story using an uploaded image. The app also provides MCQ's and flashcards containing nouns, prepositions etc for better understanding for the users(kids).
Packages used: **LLama, Python, VScode, Flutter, Ollama**

Relevant-Skills

- 1) **Programming:** Dart(Flutter), Python, Java, JavaScript, TypeScript
- 2) **Development Frameworks:** React, Flutter, Node
- 3) **Designing:** Figma, Canva
