As a Full Stack Developer, I uphold transparency, objectivity, and ethical standards, ensuring honesty, integrity, and fairness in all my work.

Experience

BARC Project Trainee May 2024-July 2024

Java EE, Spring, JasperReport, jBPM, PostgreSQL Domain: Software Development
Development of Module for forwarding of application to posts advertised/circulated is digitization process wherein Employees can apply for obtaining NoC online for posts outside BARC. This enables the organization to modernize administrative practices and enhances operational effectiveness ensuring more efficiency and transparency in the overall AAIS system.

Projects

Decentralized Document Verification Platform

Blockchain Technology, Web 3.0 Next JS, Tailwind CSS, Solidity, Express, Node, Clerk
Developed a web application leveraging IPFS (InterPlanetary File System) and Ethereum Testnet blockchain to enable users to securely upload and verify documents without the need for Ethereum cryptocurrency. Integrated smart contracts to store document hashes on the blockchain, ensuring tamper-proof verification.

AI Toolkit

Artificial Intelligence (AI), Generative AI, Next JS, Tailwind CSS, Clerk
Developed an AI toolkit utilizing Gemini API and Replicate AI through server-side functions to generate images, text, code, videos, and audio content. Facilitated seamless content generation across various media formats, enhancing capabilities in digital content creation.

Financial Literacy RPG Game

Game Development, Education Technology, Next JS, Tailwind CSS
Developed a 2D RPG game using JavaScript aimed at enhancing financial literacy among students. The game integrates gamification elements similar to Pokemon RPG, offering interactive learning through leaderboards, virtual currency, and rewards. It provides an environment where players learn essential financial concepts while engaging in stock market investments and savings with interest. Additionally, the game features an AI learning assistant to explain financial terms, promoting responsible money management and financial awareness through a chore management system with financial rewards.

Skills

Frontend: HTML, CSS, Javascript, React, Next, Tailwind, Bootstrap
Backend: Node, Express, **Languages:** Python, Java, C
Database: MongoDB, PostgreSQL, **Additional:** Solidity, Firebase, Machine Learning
Version Control: Git, Github

Education

Vivekanand Education Society's Institute of Technology, Chembur	2021-2025
Bachelor of Engineering in Artificial Intelligence and Data Science with Honors in Blockchain	CGPA- 8.61
Father Angels Multipurpose School and Junior College, Vashi	2020-2021
Higher Secondary Certificate (HSC)	Percentage 95%
Father Angels Multipurpose School and Junior College, Vashi	2018-2019
Secondary School Certificate (SSC)	Percentage 90.80%

Certifications and Courses

UDEMY The Complete 2024 Web Development Bootcamp	Certificate
AWS Educate Introduction to Cloud 101	Certificate
AWS Academy Cloud Foundations	Certificate
DevOps Beginners to Advanced with Projects	Certificate
