PROFILE

I am a passionate and driven IT enthusiast with a strong understanding of key concepts and a knack for solving complex problems. My commitment to learning and improvement drives my work in web development and machine learning. My practice of classical music has taught me focus and consistency, which I apply to my professional life. I am eager to use my skills and creativity to contribute and grow in a dynamic IT environment.

EDUCATION

Vivekanand Education Society's Institute of Technology, Chembur

B.E. in Information Technology 2021-2025
CGPA 8.83 (current)

Vidyadham Junior College, Sambhajinagar
12th (HSC) | 77%

Bhagyalaxmi Sarla Gurusahani Memorial School, Sambhajinagar
10th (SSC) | 96%

SKILLS

TECHNICAL SKILLS: Programming languages: HTML, CSS, JavaScript, C, C++, Python.

Frameworks and tools: React.js.

IT Constructs: DSA, OOP, OS.

Databases: SQL.

SOFT SKILLS: Effective Communication, leadership, team management, creativity, logical thinking, problem solving.

EXTRA-CURRICULAR ACHIEVEMENTS

- **Elected** as the Music Secretary for the academic year 2023-24.
- **Silver Medalist** in the Inter-Ves Throwball Tournament.
- **Finalist** in multiple classical and non-classical music competitions.

PROJECTS

AI Virtual Mouse Using OpenCV:

(Python, MediaPipe, OpenCV, PyAutoGUI)

Key Features:

- **Camera-Based Control:** Developed software to control the mouse cursor using camera input.
- **Touch-Free Operation:** Created a solution for touch-free computing, reducing hardware requirements.

MediSwift (Medicine Delivery Website):

(React.js, Express.js, MongoDB, Redux-toolkit, Stripe)

Key Features:

- **Efficient Deliveries:** Built a platform connecting local pharmacies for fast medicine delivery.
- **Integrated Payments:** Implemented secure payment systems for smooth transactions.

Laser Detection GUI Application:

(C++, Qt Creator, UART, QSerialPort, QDebug)

Key Features:

- **GUI Development:** Designed a user interface for a laser detection system using C++ and Qt.
- **Effective Communication:** Integrated UART for seamless interaction with hardware components.

EXPERIENCE

BUSINESS DEVELOPMENT ASSOCIATE | BABYCLOUD

NOVEMBER 22 - MAY 23

- Boosted growth with research, partnerships, and targeted social media campaigns. Enhanced brand engagement through strategic content and data analysis.

MUSIC SECRETARY | VESIT MUSIC COUNCIL

JULY 2023- MARCH 2024

- Led a team of 21, coordinating music initiatives and events while managing administrative tasks. Ensured clear communication between musicians, management, and attendees for seamless execution.

INTERN | BHARAT ELECTRONICS LIMITED, PUNE

MAY 2024 - JULY 2024

- Contributed to the development of a laser detection GUI application, focusing on software design and hardware integration. Facilitated clear communication within the development team for effective project execution.
