EDUCATION

Vivekanand Education Society's Institute Of Technology

Bachelor of Engineering in Information Technology, Honors in Data Science
Grade : 9.52 (upto Semester 6)

Mumbai, India

Dec. 2021 – June 2025

Pace Jr. Science College

Grade : 93%

Mumbai, India

Aug. 2019 – June 2021

Kendriya Vidyalaya IIT Powai

Grade : 97.8%

Mumbai, India

June. 2009 – May 2019

RELEVANT COURSEWORK

- Data Structures
- Database Management
- Operating Systems
- Analysis of Algorithms
- Artificial Intelligence
- Data Science
- Computer Networks
- Data Warehousing

EXPERIENCE

Software Engineer Intern

ARCON Tech Solutions

May 2024 – July 2024

Mumbai, India

- **Implemented** and **automated** test cases using **Java**, **JUnit** and **Selenium** to ensure software quality and reliability. **Improved** test automation framework, increasing testing **efficiency** and coverage.
- **Developed** and maintained test scripts for web apps, **collaborating** with development teams to resolve defects
- **Raised** and **tracked bugs** using **JIRA**, ensuring timely resolution and effective communication with stakeholders

Web Developer Intern

Erfinden Technologies Pvt. Ltd.

June 2023 – July 2023

Remote

- Contributed to the **development** of the **frontend** and **backend** of an E-commerce website for Co-operative Societies in India using the MERN stack (MongoDB, Express.js, React, Node.js).

PROJECTS

NGO Connect | *ReactJS, ExpressJS, NodeJS, JSON, MongoDB*

- Developed a web application that links NGOs with Volunteers/Donors, providing an interface for NGOs to showcase their vision and gain exposure from the public interested in making a social contribution
- Implemented features to allow NGOs to create profiles, post their mission, and update on-going projects, facilitating better engagement with potential supporters

Text to Video Converter | *Python, Natural Language Processing(NLP), Flask, Jinja Templating, Firebase*

- Developed a Python-based web application using Flask and Jinja Templating to convert textual inputs into videos
- Utilized NLTK and SpaCy libraries for keyword extraction and natural language processing tasks
- Integrated MoviePy for video editing, fetching relevant images from Pixabay API, and stitching them into a coherent video

Yoga Assist (Yoga posture rectification) | *Python, Flask, ReactJS, Machine Learning, Tensorflow, Firebase*

- Developed a comprehensive web app with MERN stack, Python, Flask, and Tensorflow pose detection model.
- Aims to rectify the posture of yoga performers in Real time and also provides recommendations for yoga exercises based on user's needs.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, MySQL, JavaScript, HTML/CSS

Frameworks / Libraries: ReactJs, Node.js, Flask, JUnit, TestNG, Tensorflow, Bootstrap

Databases / Tools: Firebase, MongoDB, MySQL, Git, Figma, Canva, Excel
