EDUCATION

Vivekanand Education Society Institute of Technology (BTech) Artificial Intelligence & Data Science	2021 – 2025 CGPA : 9.76
Maharashtra State Board of Higher Secondary Education	2019 - 2021 89%
Maharashtra State Board of Secondary Education	2019 93.20%

EXPERIENCE

Action Against Hunger Data Engineer Intern Andheri	May 2023 – July 2023
- Leveraged Excel to comprehensively understand and analyze data for Action Against Hunger. - Utilized CommCare for efficient data collection, streamlining the workflow for database management. - Processed critical organizational data using MySQL, enhancing decision-making processes. - Employed Tableau for advanced data visualization, significantly improving strategic planning and insights.	
Siemens Intern Airoli	May 2024 - Present
- Developed an automated data cleaning module with a web interface using Python , Flask , HTML , CSS and JavaScript. - Extracted data using Tableau, integrated it with RTU systems, and built a Streamlit frontend for RTU Efficiency Management. - Built a PowerBI dashboard, automated Excel file generation for hourly analysis, and created a Dashboard with Chart.js.	

PROJECTS

Aarogyachar - An Alternate Therapy

- Developed an e-pharmacy application using Flutter, integrating a **Python-deployed Machine Learning model** for disease prediction, home remedies, and medication recommendations, along with performing **EDA and ETL**.

Credit Card Fraud Detection using Django

- Implemented a **Django-based web application utilizing machine learning algorithms** for credit card fraud detection, ensuring financial security through a user-friendly interface built with **HTML and CSS**.

Student Management System Using Java

- Developed a Student Management System in **Java using Swing** for the UI, **JDBC for database connectivity**, and **MySQL** for data storage.
- Implemented and deployed using **NetBeans IDE, phpMyAdmin** for database management, and **XAMPP** for local server environment setup.

Call Center Trends Analysis

- Utilized **DAX in Power BI** and **Power Query** to analyze and visualize key telecom **KPIs**, including customer satisfaction and agent performance
- Employed advanced analytics to link call volume with service quality, identifying strategies to boost satisfaction, decrease churn rate, and increase agent productivity, aiding in customer retention

SKILLS

Programming: Python, Java, Numpy, Pandas, Scikit-learn, R, C++, HTML, SQL, C

Visualization Tools: Microsoft PowerBI, Excel, Matplotlib, Seaborn, Tableau

Technical: GIT, Visual Studio Code, NetBeans, Jupyter Notebook

Databases: Postgres, MySQL, Microsoft SQL, Basics of MongoDB.

Web Technologies: Html, CSS, JavaScript, Rapid Api, Basics of React and Node

Soft Skills: Strong organizational and time-management skills, Ability to work independently and as part of a team.

CERTIFICATIONS

- Certified by Google in Advance Data Analysis.
- Certified in PowerBI from Growth School.
- Certified in the Excel Virtual Experience Program by JPMorgan Chase & Co.
- Certified by TATA for Data Visualisation: Empowering Business with Effective Insights.
- Certification by Nvidia in Deep Learning Fundamentals.
- Certified by StudyLink in Advance Java.

EXTRA - CURRICULAR

- Published a research paper titled "Aarogyachar An Alternate Therapy" (Disease Prediction and Remedies Suggestion) in the International Journal of Computer Applications (IJCA).
- Junior Public Relation Officer of AI Colegion(2022).
- Senior Public Relation and Organizing Officer of AI Colegion(2023).
