EDUCATION

Bachelor of Engineering in Information Technology

CGPA: 9.4 (Upto Sem VI)

Vivekanand Education Society's Institute of Technology, Chembur

V.G.Vaze College of Arts, Science and Commerce, Mulund, Mumbai

HSC: 96.33 percent

Sou. A.K. Joshi English Medium School, Thane

SSC: 95.6 percent

EXPERIENCE

Intern at Jhaveri Thanawala School For Deaf | July 2024 - Present

Thane, India

- Developed a system that effectively recognizes Indian Sign Language using Deep Learning Algorithm: YOLOv8.
- Platform for quiz and learning Indian Sign language is being developed.
- Exploring ways to make basic topics from Mathematics and Science easier for hearing-impaired students.

Intern at Virtual Labs, COEP Technological University | Jan 2023 - Jun 2023

Pune, India

- Generated 200 random questions, three wrong answers, and one correct answer for 12 mathematical problem statements using Java.
- The generated questions were stored in Excel Sheets.

PROJECTS

Signova | Machine Learning, Web Development

- Developed an Indian Sign Language Recognition system using Machine Learning with algorithms such as Random Forest and YOLOv8.
- Project consisted of three modules: Translator (Sign to Text and Speech), Quiz, and Learning modules.
- Preprocessed the input images using Simple Vision, Threshold Vision, Canny Vision, and Skeleton Morph Vision.

Fin.Ally | Web Development, Machine Learning

- Developed a Progressive Web Application that helps improve financial literacy among the youth.
- The project included five modules: Daily chores management, Expenses and savings tracker, Investment Recommendation System, Virtual bank with various accounts, and Mini-games like Choices, Quiz, Tax, Fraud and Stocks' Prediction.
- Used Atlas Charts for visualizing the expenses.
- Utilized service workers for reminder notifications for chore completion.

KiddoShield | Web Development

- Developed a web application using Node.js to ease the vaccination process.
- Created a platform where users can register for vaccination as per their choice of fees and location of hospital.
- Used leaflet API to display locations of the hospitals.

Personal Finance Dashboard | Python, SQL

- Developed a system that tracks and visualizes expenses and savings of a user using Python and MySQL Database.

ACHIEVEMENTS

Technical Achievements

- Finalists of Nomura KakushIN 8.0 Hackathon.
- Qualified for zonal round of Aavishkar'23.

Co-curricular and Extra-curricular

- Working as a reporter and as an executive team member in VesitConnect, the college's letterhead team.
- Volunteered teaching Mathematics at U and I NGO, Thane District, for the academic year 2022-23
- Received first rank in Rangoli and Castle Making in Illusion, a college event.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, Java, C/C++,

Frameworks and Tools: Flask, Node.js, Git
