

Ravi Valecha

Software Developer & Tester

ravivalecha2510@gmail.com | 7666245679 | Mumbai, India | linkedin.com/in/valecha-ravi | gitlab.com/ravi-valecha

Profile

I am a motivated and aspiring engineering student with a strong interest in Development and Testing. I possess solid foundation in Development, Debugging and Testing, and enjoy applying innovation, curiosity & end-to-end thinking to everything I do, be it application development, application testing, or collaboration. My approach to work, is to get a complete understanding of what is required and find the most effective way of bringing that to life.

Professional Experience

SDET Intern, Target Publications Pvt. Ltd. May 2024 | Mumbai, India
Developed **E2E Automation Test Suite** for an e-commerce website using JavaScript & Cypress in **BDD Approach**

- Performed Manual Testing and identified 72% of major bugs, and Automated 60% of them.
- Collaborated with the development team to identify and analyze software defects and used **JIRA** for bug tracking.
- Participated in daily **stand-up meetings** to discuss project progress, challenges, and potential improvements.
- Followed **Agile testing** methodology, participated in daily **SCRUM** meetings and testing each Sprint deliverables.
- Ensured the release of premium-quality application that provided intuitive and secure experiences for users.

Projects

Chat System February 2024
Java | Networks | Security
Developed a secure one-to-one chat system, leveraging **Socket programming** in Java.

- Applied **Object Oriented Programming** (OOP) principles and utilized custom **XML parser** and **DES encryption** for efficient message passing and end-to-end secure communication between users.
- Integrated **multi-threaded** socket programming to efficiently manage concurrent connections.

Student Management System March 2024
Java | Java Swing | SQLite
Developed a robust Student Management System with full CRUD operations, including image handling, stored in SQLite.

- Implemented CRUD operations with a user-friendly **GUI** using Java Swing, Java SQL, and Java Image I/O.
- Leveraged **SQLite** for database management, ensuring data persistence and integrity.

Pen Down February 2024
Java | Java AWT
Developed a stand alone application (Text Editor) with interactive user interface by utilizing **Abstract Window Toolkit (AWT)**.

- Implemented file handling features, and incorporated **DES** encryption and decryption mechanisms.
- Applied **Object-Oriented Programming** concepts for efficient design, and handled exceptions to ensure **error-free operation**.
- Developed custom components for enhanced user interactions and experience, and utilized dialogs for user prompts.

Kid O Store Automation January 2024
JAVA | Selenium | Cucumber | TestNG | Maven
Developed thorough test cases, coverage, and automation for a high-traffic educational e-commerce website.

- Automated Tests using **Selenium** Web Driver, **JAVA**, TestNG and Cucumber.
- Integrated **Behavior Driven Development** (BDD) with **Cucumber** to develop Test scenarios and features.
- Performed **Data driven test** for testing functionalities and implemented Step definitions with **Gherkins**.

Auth Management February 2024
PHP | MySQL | HTML | CSS | JavaScript
Developed a **custom authentication** system inspired by Laravel, ensuring robust user authentication and security.

- Built custom authentication with **token-based** "remember me" functionality and integrated "forgot password" using **PHPMailer** services, following proper **design patterns**.
- Implemented user verification and security measures against **SQL injection** for secure and reliable authentication.

Education

Vivekanand Education Society's Institute of Technology, BE in CS 2025 | Chembur
CGPA: 9.42

Chandibai Himathmal Mansukhani College, HSC 2021 | Ulhasnagar
Percentage: 90.50

Technical Skills and Interests

Languages — Java, Javascript, PHP, SQL, C, C++, HTML, CSS, Python

Tools — Selenium, Cypress, Jira, Git, NetBeans, XAMPP, MySQL, MySQL WorkBench, IntelliJ, Sublime, Visual Studio, Figma, Post Man

Frameworks — Laravel, React, JQuery, TestNG, Cucumber, Post CSS, Tailwind CSS, Bootstrap

Methodologies — Agile Scrum, Waterfall

Soft Skills — Problem Solving, Critical Thinking, Team Co-ordination, Communication, Adaptability, Keen Learner

Areas of Interest — Teaching, Playing Chess, Drawing

Participations and Achievements

- **Automation Testing** Completion Certificate
- Participated in **Syrus Hackathon**
