PROFESSIONAL SUMMARY

Ambitious and technology oriented student currently pursuing a degree at Vivekanand Education Society Institute of Technology, with a strong academic record and a passion for software development. Proficient in multiple programming languages and frameworks, with hands-on experience in developing web applications and participating in hackathons. Excellent team player with strong leadership, communication, and time management skills, aiming to leverage technical expertise in a challenging and innovative environment.

EDUCATION

Year	Examination	Institute/Board	CGPA/Percentage
2021-2025	B.E. Computer Engineering	Vivekanand Education Society Institute of Technology	9.59 (Till Sem 6)
March 2021	HSC	Maharashtra State Board	90.83%
March 2019	SSC	Maharashtra State Board	89.00%

EXPERIENCE

- **Product Management Intern, Ingenious Creatiive Ideas**

June 2023 - August 2023

- Worked on product management tasks and assisted in project coordination.
- Gained experience in managing product life cycle from concept to launch.
- Collaborated with cross-functional teams to enhance product features.
- Developed communication and leadership skills through daily interactions and project updates.

PROJECTS

Project Name	Technology	Description	My Role
Travel World	MERN Stack (MongoDB, Express.js, React, Node.js), various APIs	Created a dynamic platform for itinerary generation, weather prediction, nearby place recommendations, and external booking integration.	Group Leader: Orchestrated project development, coordinated team efforts, and integrated functionalities for an engaging planning solution.
Educational Website for Kids	HTML, CSS, JavaScript, SQL	Developed a website enabling students to attend lectures, take quizzes, and teachers to upload notes and conduct lectures.	Group Leader: Led development, integrated features seamlessly, and collaborated to optimize project functionality and user interaction.
Student Detail Management System	HTML, CSS, JavaScript, SQL	Developed by integrating features like record management, thorough audit logging, and student registration.	Developed individually, integrated features seamlessly, and optimized project functionality and user interaction.

SKILLS

- **Programming Languages:** Java, Python
- **Databases:** SQL, MongoDB
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks and Tools:** React, VSCode
- **Soft Skills:** Team Work, Time Management, Problem Solving, Leadership

HACKATHONS

- **Syrus Hackathon (2023-2024):** Participated in this inter-college hackathon, working on innovative solutions to real-world problems and collaborating with peers to develop a functional prototype within a limited timeframe.
- **Quasar Hackathon (2023-2024):** Competed in the Quasar Hackathon conducted by Vasantdada Patil College of Engineering, where we developed a project from scratch, focusing on creativity, problem-solving, and teamwork to deliver a unique solution.

OTHER ACTIVITIES

- **Social Responsibility Team:** Part of the Social Responsibility Team (SoRT) council where we conducted drives such as blood donation, Unnat Bharat Abhiyan, and Swachh Bharat Abhiyan. Developed leadership, organizational, and community engagement skills through these initiatives.
