

INTRODUCTION

A data enthusiast, who loves to analyse and visualise the stories hidden in data.

EDUCATION

Degree	Institute	Board / University	CGPA/Percentage	Year
B.E CE	VESIT, Mumbai	Mumbai University	9.86 (Till 6th Sem)	2021-2025
Senior Secondary	Sanjay Ghodawat Junior College	HSC	95%	2020
Matriculation	ST. Ursula School	SSC	95.80%	2018

PROJECTS

- Heart Disease Detection: Exploratory Data Analysis

[Kaggle Notebook](#)

 - The project uncovers patterns and correlations between various health indicators and the presence of heart disease.
 - Libraries used - NumPy, Pandas, Matplotlib and Seaborn
- Wireless Data Extraction System for Display Panels

[Repository](#)

 - The project leverages the You Only Look Once (YOLO) Model for object detection and Optical Character Recognition (OCR) algorithms to analyse text in real-time video streams.
- Black Friday Sales Analysis

[Colab Notebook](#)

 - Conducted a comprehensive Black Friday sales analysis using Python, Pandas, Matplotlib, and Seaborn for data cleaning, exploration, and visualisation to identify key sales trends and consumer behaviour patterns.
- Role of Amazon Web Services (AWS) in Modern Data Analytics

[Medium Blog](#)

 - My article explores how Amazon Web Services (AWS) excels in the field of data analytics with services like Amazon Redshift, AWS Glue, and Amazon SageMaker, showcasing real-world applications from Netflix, Airbnb, and Coca-Cola.
- English to Hindi Translator using AWS

[Documentation](#)

 - Developed an English to Hindi translator leveraging AWS services such as Lambda, IAM, CloudWatch, DynamoDB and S3.
 - It offers a reliable and accessible tool for individuals and organisations seeking English to Hindi translation capabilities, enhancing communication across language barriers.

EXPERIENCE

- Saint-Gobain International IT and Delivery Centre

Summer Intern

May 2024 - July 2024
Mumbai

 - Developed an immersive VR app for fire safety training and evacuation protocol using Unity and Meta (Oculus) SDK, featuring interactive elements like a virtual fire extinguisher.
- TATA Institute of Fundamental Research (TIFR)

Research Intern

July 2023 - May 2024

 - The objective of this internship was to work on an industrial project for real-time wireless extraction of data from industry panels using technologies such as Machine Learning and Character Recognition.

SKILLS & INTERESTS

- Data Analytics
 - Python
- SQL
 - Tableau
- Cloud Computing
 - Amazon Web Services (AWS)
- Machine Learning
 - Java

ACHIEVEMENTS

- UI/UX Competition - IEEE, Secured 1st rank for building a prototype of an app for 'Women in STEM'

2023
- Digital Poster Making Competition - Union Bank of India, Secured 2nd rank

2022
