Education

Vivekanand Education Society's Institute of Technology

2021 - 2025

Bachelor of Engineering in Information Technology | CGPA: 8.50

Skills & abilities

Programming Languages: Java, Python, Javascript

Database: MySQL

Frameworks: JDBC, Spring core Framework, Spring Boot, Spring Data JPA, Django, Flask

Tools: Git, GitHub, Postman

Experience

SUD Life | Software Developer Intern

March 2024 - Present

- Developed and maintained a stationary management system using a combination of Next.js for the frontend, Flask for the backend, and MySQL for the database.
- Implemented **2-factor authentication** to enhance security and protect user accounts.
- **Secured application routes** ensuring only authorized users can access sensitive information and functionalities.
- Automated process for extracting data from email attachments and store it in particular format.

Projects

Employee Management System | [GitHub](#)

- Tech Stack: Spring Boot, Spring Data JPA, MySQL, ReactJS, Bootstrap.
- Developed a **secure authentication system** for admin access to ensure only authorized personnel can manage employee data.
- Implemented CRUD operations (Create, Read, Update, Delete) for employee records **using RESTful APIs**, allowing efficient management of employee information.
- Built a **search functionality** to quickly find and retrieve employee details based on various criteria.

Real-Time Chat room | [GitHub](#)

- Designed and developed a real-time chat application using Spring Boot, enabling users to **engage in live interactions** and conversations.
- Worked on **WebSocket protocol** for instant messaging and real-time updates.

Extracurricular activities

Certification: Oracle Java Certified Foundations Associate.

Conducted Django workshop with 300+ participants.

Developed backend part of Inventorium(ecommerce website) as a part of Software Development Team of ISA-VESIT. [Live link](#)
