Dombivli east, Maharashtra, India

EDUCATION

Vivekanand Education Society Institute of Technology

B.E. Information Technology
2021 – present
CGPI – 9.00

Shri Sushil Kumar Thirani junior college

2019 – 2021
Percentage – 91.33%

St. Therese convent School

2009-2019
Percentage – 88.2%

SKILLS

- **Programming Languages** – Java ,Python ,C++
- **Web Development** – HTML ,CSS ,Tailwind CSS
- **Frameworks** – React.js, Node.js, Express.js
- **Databases** – MySQL , MongoDB ,Firebase
- **IT Constructs** – OOPM , OS , DBMS , DSA
- **DevOps** – Git & Github , Docker

ACHIEVEMENTS

- **Top 6** in Invictus Hackathon 2024 – MindMap (among 55 teams)
- **Top 6** in **Syrus** hackathon (Category- Generative AI) 2024
- Scored >750/900 in **Comptia Security+**
- **Silver Elite** in Programming in Java NPTEL 80%
- **Elite** in Python for Data science NPTEL
- **Elite** in Programming in modern C++ NPTEL
- Part of **NPTEL Stars** team (Selected for most certifications completed)

EXPERIENCE

Mvarro (Verzeo)- Cyber Security Analyst Internship

- Penetration testing , bug bounty ,DDOS attack, sql injection , Cross-site scripting attacks, bluetooth snarfing, steganography , Malware Analysis
- Received **outstanding performer** for finding various vulnerabilities and completing all requirements.

PROJECTS

QuizGen -

- **HTML | CSS | Javascript | Youtube Data API | OpenAi API**
- Developed Chrome Extension using Javascript to enhance **Youtube** Functionality .
- Integrated OpenAI API to implement features such as relevancy index calculation for videos, summarization of video content, generation of questionnaires, and bookmarking of important timestamps

Scrapesonic

- **Tkinter | Beautiful Soup | Numpy | Pandas**
- Extracted product details from Flipkart, displaying them in a structured table. Enabled data visualization by plotting product attributes using graphs

Sawarii

- **React.js | Node.js | Express.js | MongoDB | Mapbox API**
- Created an platform for ride publisher and passengers. Implemented REST API for efficient data handling
- Successfully integrated Mapbox API to fetch location.

ImagerPro -

- **REACT | Tailwind CSS | FLASK | OpenCV | SKLEARN**
- Developed machine learning based facial recognition software
- Implement Linear Regression and utilized Haar cascades for feature extraction n to achieve accurate and reliable facial recognition performance

CERTIFICATIONS

- **Comptia** – Security + certification
- **NPTEL** – Programming in Java
 - Programming in C++
 - Database Management System
 - Python for Data science
 - Computer network and Internet protocol
- **Udemy** – Data Science course
- **Nvidia DLI** – Data Parallelism
 - Fundamentals of deep learning
 - AI for Anomaly Detection
 - AI for Predictive Maintenance
- **Oracle Academy** – Java Fundamentals
 - AIML
