SUMMARY

As an Electronics and Telecommunication Engineering student, combining my tech background with a passion for management roles and digital marketing allows me to seamlessly integrate technology into strategic initiatives. Known for my dedication, adaptability, and timeliness, I've successfully managed multiple academic projects and events, showcasing valuable organizational skills. While my experience may not be exhaustive in certain fields, I thrive on learning and adapting swiftly to acquire the necessary skills. Eager to contribute to a dynamic team, I bring a blend of technical mastery and a strategic mindset. Beyond the professional sphere, you'll catch me on the dance floor and engaging in sports, finding joy in movement and teamwork. I'm also a photography enthusiast, capturing moments that tell a story, and enjoy video editing to immortalize the memories of life.

EXPERIENCE

Digital Marketing

Corizo

July 2024 – Present

- Gaining knowledge and experience in diverse marketing strategies and techniques.

AI & ML Data Analytics

Jio

May 2024 – July 2024, Navi Mumbai

- API Development and Scripting
- Experience with Tools and Deployment
- Database Management and Utility Implementation

Machine learning with AI using Python

Internship certified by Knowledge Solutions with a Microsoft Partner

December 2022 – January 2023

- Training and Internship of 6 weeks, along with a project on diabetes prediction.
- It helped me to learn how to use Python for AIML

PROJECTS

National Level Techathon

Innovation Foundation, Pune • February 2024 – February 2024

- Innovate You Techathon held at AISSMS, Pune. With Team AzTech, collaborated on enhancing our project, the Braille Understanding Board. Engaged in code cracking, solution brainstorming, and mentorship sessions, gaining insights from industry professionals. Demonstrated teamwork, adaptability, and innovation in pushing project boundaries for tangible improvements in our project Braille Understanding Board.

Aavishkar

University of Mumbai • December 2023 – December 2023

- With Team AZtech, we developed a Braille Understanding Board in humanities, language and fine arts, advancing to finals. Improved technical skills and fostered teamwork in a creative and collaborative environment.

Braille understanding Board

March 2022 – March 2023

- Developed a Braille Understanding Board, featuring a Braille-patterned keypad designed for the visually impaired. The system displays the specified braille pattern input by the user in both uppercase and lowercase English alphabet, including numbers. Incorporated keys for enter, space, and next-line functionalities. Implemented using STM32 and Arduino, this project aimed to enhance accessibility in the education system for individuals with visual impairments

E-Wastebasket

March 2021 – March 2022

- We made an E-Wastebasket which opens the basket lid as soon as it detects a motion in the specified distance so that the waste could be thrown in the basket. It also tells us about the level of waste and the location of the wastebasket so the respective authorities can clean the wastebasket in the area. Implemented it using Arduino IDE and Raspberry Pi.

EDUCATION

Bachelors of Engineering in Electronics and Telecommunication

Vivekanand education society's institute of technology • Chembur, Mumbai • 2025 • 8.76

Class 12

New Horizon Public School • Airoli, Navi Mumbai • 2021 • 94%

Class 10

New Horizon Scholars School • Airoli, Navi Mumbai • 2019 • 94.6%

CERTIFICATIONS

Networking Basics

Cisco • 2024

- Learned about Computer Communication and Network.

Introduction To Java Programming: Java Fundamental Concepts

Coursera • 2023

- Through this project, I learned about different concepts of java and how to implement it.

Fundamentals of digital marketing

Google digital garage • 2023

- Through Google's Fundamentals of Digital Marketing course, I gained insights into various digital marketing strategies, including SEO, SEM, social media, and analytics. It covers audience targeting and campaign optimization.

Introduction To HTML, CSS and Java Script

IBM • 2023

- I learned to create and structure basic web pages using HTML and style them with CSS and use JavaScript Programming for web application

Introduction to Social Media Marketing

Meta • 2023

- I understood and learned about the major social media platforms, how they function, and what role they play in marketing, creating SMART goals, identifying KPIs, and defining your target audience and their customer journey

Designing User Interface And Experience (UI/UX)

IBM • 2023

- It helped me to learn and develop applications and websites with web development frameworks, use Figma, the essential concepts of Figma, and its various features.

INVOLVEMENT

Senior Deputy Secretary

VESIT, Mumbai • SoRT Council • July 2023 - Present

- As Senior Deputy Secretary of the Social Responsibility Council, leading a video aesthetics team refined my project management and public speaking. Contributing to a social event has fostered a deeper sense of empathy and social responsibility, profoundly impacted me, and enhanced my connection to the community, evoking a fulfilling blend of happiness and pride. I have acquired proficiency in utilizing tools such as Google Space, canva, and Figma, enhancing my skills through hands-on experience and practical application.
- Being part of a video aesthetics team honed my technical skills, storytelling abilities, and collaborative spirit, while also fostering adaptability, attention to detail, and effective time management.

Dance troupe

VESIT, Mumbai • Cultural Council • July 2022 - July 2023

- Being in a dance troupe has helped me to learn to work well with others, talk effectively, and adjust to different situations. Being in a dance group shows hard work by practicing a lot, staying dedicated, and always aiming for excellence in every performance shaping me into a versatile individual.
