WORK EXPERIENCE

Veestar Infotech Solutions LLP, Delhi
MERN Stack Developer

Dec 2023 - Mar 2024 Jun 2024 - Jul 2024

- Converted a second-hand electronics retailer website from React JS to Astro JS, improving performance by 40% and reducing page load times by 90%.
- Developed a promotional website for an infotech solutions company using Next.js and Tailwind CSS and Wordpress as a headless CMS, emphasizing the company's services and solutions.
- Created an employee attendance app with React Native, enabling efficient tracking of employee attendance across Android platforms.
- Created and integrated APIs into projects to enhance functionality and facilitate seamless data exchange between frontend and backend systems.

PROJECTS

WIRELESS DATA EXTRACTION

2024

- Developed a non-invasive system to extract data from display panels wirelessly.
- Utilized YOLO Model for real-time object detection enhancing accuracy and speed in data extraction.
- Implemented OCR for extracting text data from display panels.
- Employed Python, PyQt5, OpenCV, YOLO v5, and PyTorch for seamless integration and performance.

DATA ANALYTICS ON APPSTORE

2023

- Utilized SQL to extract, clean, and analyze data from millions of app listings.
- Developed complex queries to uncover insights into user ratings, downloads, and app categories.
- Produced actionable reports that guided marketing and development strategies.

EMPLOYEE ATTENDANCE AND COMPENSATION TRACKER

2024

- Developed React Native app with Supabase backend for comprehensive employee management.
- Features: Attendance recording, leave management with approvals, and overtime tracking.
- Engineered detailed attendance reports and compensation calculation based on attendance records.
- Provided Dashboard Analytics for insights into employee attendance patterns and compensation trends.
