PERSONAL PROFILE

Ambitious Computer Engineering undergrad skilled in Python, Data Science, and UI/UX design. Passionate about Software development, Data Science, ML, LLMs, Space tech, and Graphic Design.

EDUCATION

- **Bachelor of Computer Engineering,** [2021-2025]
V. E. S. Institute Of Technology **CGPA: 9.57**
- **HSC / Intermediate** [2021]
L. V. H. College, Nashik **PCT : 98.67**

SKILLS

- **Technical:** Python (Pandas, NumPy, Matplotlib), Data analysis & analytics, Machine learning, SQL, LLM, Generative AI, Java, Flutter, Firebase, C, Web-Dev, OpenCV, Software Testing.
- **Miscellaneous:** Markdown, Git, Blender, Figma [UI/UX].
- **Soft Skills:** Time Management, Teamwork, Problem-solving, Documentation, Engaging Presentation.

WORK EXPERIENCE

Data Intern [Bangalore (Remote), May 2024-Jul 2024]

GrapheneAI

- Collaborated on testing AI pipelines, generating datasets, and performing data cleaning and processing tasks.
- **Tech Stack:** SQL, Python (NumPy, Pandas), Spreadsheets, Pipeline testing platform.

Language Contributor

[Freelance, May 2024 - current]

Outlier

- Creating prompts for AI models, generating high-quality responses, and ranking AI-generated responses.
- **Tech Stack:** Gen AI, AI prompting, LLM testing, Performance measurement

PROJECTS

Psychalyzer: Early Childhood Psychological Assessment

VESIT, Mumbai [April 2024]

Project link: github.com/codderv006/psychalyzer-001-SIH

- **Child Psychology App:** Integrating text processing, games, and a GPT-powered ChatBot for comprehensive assessment and insights into child emotional and mental states.
- **Technical Skills:** Flutter, Firebase, LLM, Git, GitHub.

PictoNarrot: Language-learning app for special children.

VESIT, Mumbai [July 2024]

Project link: github.com/codderv006/pictonarrot-summer-internship

- Co-developed PictoNarrot, an app for language learning in children with special needs using **Flask, Flutter, NGROK, LLAVA, and Cloudinary**.

ACHIEVEMENTS

DevIgnite Hackathon - First Place

SIGE, Ghansoli, Mumbai [March, 2024]

- Project focused on reducing vehicle lines at CNG refilling stations using slot management & machine learning.
- GitHub Repository: [Link](#)

Datazen Community's Datathon - First Prize

KJSCOE, Vidyavihar, Mumbai [February, 2024]

- Data analytics project to provide strategic insights regarding football team formation and financial conditions.
- GitHub Repository: [Link](#)

CERTIFICATIONS

Data Analysis with Python (Free Code Camp), **Database Operations in MariaDB Using Python** (Infosys), **Data Visualisation Job Simulation** (Tata, Forage), **Fundamentals of Deep Learning** (NVIDIA DLI), **Foundations: Data, Data, Everywhere** (Google).
