EDUCATION

- **Vivekanand Education Society's Institute of Technology, Mumbai** 2021 - 2025
B.E. Information Technology CGPA: 8.87
- **PACE Junior Science College, Thane** 2021
Maharashtra State Board Of Secondary And Higher Secondary Education Percentage: 89%
- **New Horizon Public School, Navi Mumbai** 2019
Central Board of Secondary Education Percentage: 92.80%

EXPERIENCE

- **IKS Healthcare** June 2023 - October 2023
Front-end Developer Intern Mindspace, Navi Mumbai
 - Collaborated with the workforce management team to maintain and update the official company website.
 - Utilized HTML, CSS, and JavaScript to implement design changes, improve functionality, and enhance user experience.

POSITIONS OF RESPONSIBILITY

- **NSS Student Head** December 2023 - Present
 - Leading a team of 100 students alongside my co-head, directing all aspects of National Service Scheme (NSS) activities.
 - Offered clear leadership, guidance, and support to ensure smooth coordination and execution of community service projects and initiatives.
- **Junior Deputy Cultural Secretary** July 2022 - March 2023
 - Assisted with the planning and execution of college cultural events.

PERSONAL PROJECTS

- **Cancer Related Prediction System**
Python, Streamlit
 - Developed using 20 years of SEER dataset, focusing on Stomach Cancer exclusively, sourced from the National Cancer Institute (NCI).
 - Integrated four distinct models for stage prediction, survival prediction, chemotherapy recommendation, and treatment response assessment.
 - Employed rigorous algorithm selection to ensure the highest accuracy in each prediction model, optimizing prognosis and treatment decisions for Stomach Cancer patients.
- **EduNFT**
ReactJS, Tailwind CSS, Web3.js, Solidity, Metamask
 - Developed a platform where educational content creators can turn their materials into NFTs, providing users with high quality educational resources while ensuring fair compensation for creators.
 - Creators were able to tokenize their materials and set prices, allowing them to monetize their expertise directly.
- **VESIT Council Management**
Tkinter, SQL workbench
 - Built a college event app to streamline event planning tasks, including registration and venue allocation for teachers. Made it easier for college councils to organize events and obtain approval from department heads.
