EDUCATION

Vivekanand Education Society's Institute Of Technology (VESIT)

2021 –2025

Bachelor of Engineering in Computer Engineering - CGPA - 9.45 (Upto Sem 6)

Mumbai, India

COURSEWORK / SKILLS

Relevant Coursework: Advanced Algorithms, Software Engineering, Data Structures, Python, Analysis of Algorithms, Database Management, Internet Programming, OOP (Java), Operating System, Computer Graphics.

PROJECTS

FINMAN-Financial Literacy App | Flutter, Flask, Socket.IO, Firebase

June 2024

- Developed an innovative mobile application aimed at enhancing **financial literacy** among students and young adults using intuitive UI.
- Implemented real-time **1v1** trading game using **Socket.IO**
- Integrated a **gamified savings and expense tracker** for user engagement,
- Delivered personalized financial news via **RSS feed**,

Medicine ordering system using IVR | Flutter, Python, Flask, Twilio, Firebase, SQL

2023-Present

- Created an all purpose medicine delivery application for targeting the users of all kinds. Providing with both **offline** and **online** ordering with **payment** portals.
- Scraped, Cleaned, Stored, Loaded and Used medicine data from **1mg** website as input for chatbot.
- Developed **OCR** for easy upload of medicine prescriptions.
- Integrated a **chatbot** to answer user queries,

Movies Data Analysis (Big Data Analytics in the Film Industry) | Python, Spark

Dec 2023

- Scraped raw data from a website using Beautiful Soup and stored it in Spark dataframes.
- Developed and executed SQL queries to extract actionable insights from the dataset.
- Created visualizations to illustrate artist shares and industry trends.
- Utilized Apache Spark to efficiently handle and process large datasets.

Cricket Data Analysis Project with Power BI | Power BI

Dec 2023

- Developed a Power BI report analyzing cricket data.
- The reports have been designed to showcase various aspects of cricket performance, such as team-wise analysis, player-specific insights, and match outcomes.

INTERNSHIP

Vivekanand Education Society's Institute Of Technology (VESIT)

May 2024 – Present

Indian News Analysis Portal

- Extracted necessary data from **YouTube videos** of Indian news channels.
- Performed **sentiment analysis** on the extracted data to determine sentiment of the news anchor.
- Categorized videos into news categories such as politics, health, crime, etc., based on the summary of the video.

TECHNICAL SKILLS

Languages: Python, Java, C, Dart, JavaScript, SQL, HTML, CSS

Developer Tools: VS Code, Android Studio, AWS, Hadoop, PostgreSQL

Technologies/Frameworks: Linux, Flutter, NodeJS, ExpressJS, Flask, Spark, PowerBI, Git, GitHub, MongoDB, Firebase

ACHIEVEMENTS

Winner of KnowCode'24 Hackathon

Jan 2024

Mumbai, Maharashtra

2nd Position in Web 2.0 Domain at SYRUS HACKATHON 2023-24

Feb 2024

Mumbai, Maharashtra
