Summary

Motivated and experienced software developer with expertise in the MERN stack and databases like MySQL, MongoDB, and FirebaseDB. During my internship, I quickly adapted to new tools such as WordPress, WPBakery, and Shopify, demonstrating my ability to learn new skills rapidly. In another internship, I served as a Business Associate, where I effectively communicated and coordinated with business clients and scheduled meetings with the co-founder, highlighting my excellent verbal communication and collaboration skills. Completed the 30 Days – 30 Projects Challenge on LinkedIn with successful deployment. Balancing these responsibilities with academics, I have maintained an aggregate CGPA of 8.73 up to semester 6, showcasing my ability to multitask and handle multiple commitments. I am eager to learn, grow & want to work with a team that works at scale, and also creates an impact to the society.

Education

VESIT, Mumbai University, BE Information Technology (CGPA 8.73/10 till sem 6)	2021 – 2025
