Mumbai,Maharashtra |91-9372639747 | aryabanavali@gmail.com |

EDUCATION

Vivekanand Education Society's Institute of Technology

June 2021 - Jun 2025

CGPI - 8.6

Bachelor of Engineering in Computer Science, Hons. Artificial intelligence and machine learning

INTERNSHIPS

Lemion IT Global

Product Analyst | 10th June,2024 - Present

- Specialized in product prototyping, including design, market research, and requirement communication with developer teams.
- Successfully completed prototyping and design phases for two major projects owned by company founders.
- Currently designing a coworking application for launch in the USA market.

PROJECTS

Zomato Data analysis | Power BI, SQL | Link: [Power BI dashboard for zomato data analysis](#)

- Developed interactive dashboards and reports in Power BI to analyze Zomato's customer reviews, ratings, and trends.
- Created visuals such as heat maps, bar charts, and geographic maps to highlight restaurant performance metrics like ratings distribution and popularity.
- Extracted and transformed raw data from Zomato's databases using SQL queries to derive actionable insights.
- Conducted data cleaning, aggregation, and manipulation operations to prepare datasets for analysis and visualization.

Feature extraction for stroke outcome and prognosis using machine learning

- Performed data cleaning on patient records containing over 5000 entries to identify and correct inaccuracies.
- Visualized graphs using various libraries like matplotlib and SHAP.
- Employed Random forest, support vector machine, decision tree classifier, and AdaBoost algorithms
- with around 92% accuracy on a patient dataset.
- Research Paper work - ongoing

SKILLS:

- SQL
- Python
- Power BI
- Figma , Canva , Powerpoint
