

ATHARVA JADHAV

Thane, India | P: 9372069874 | jadhav.atharva1601@gmail.com | [linkedin.com/in/atharva-jadhav16](https://www.linkedin.com/in/atharva-jadhav16)

EDUCATION

Vivekanand Education Society's Institute of Technology

2021-Present

Bachelor of Engineering (Computer Engineering) | Minors in Cyber Security

Cumulative GPA: 9.53/10 [Till 6th Semester]

Pace Junior Science College

2019-2021

Higher Secondary Education | Aggregate: 88%

Vasant Vihar High School & Jr College

2018-2019

Secondary School Certificate | Aggregate: 87%

PROJECTS

Profit Prediction for Businesses using Machine Learning

A framework to predict profits for businesses, helping to make profit-friendly decisions.

- Prepared a dataset for training and testing with the help of mathematical functions.
- Implemented Machine Learning Algorithms like Multiple Linear Regression, Support Vector Regression and Random Forest Regression.
- Conducted a Comparative Analysis of the above algorithms based on evaluation measures like RMSE and R^2 Score.

Dehazing of Satellite Images using Deep Learning

Implemented architectures like DehazeNet, Light DehazeNet, and AOD-Net to address the dehazing problem.

- Trained the models on the dataset using appropriate optimization techniques and loss functions.
- Conducted a comprehensive comparative analysis of the aforementioned models, evaluating their effectiveness based on metrics such as Peak Signal-to-Noise Ratio (PSNR) and Structural Similarity Index (SSIM).

House Rental Assistance

A clustering model to find the best possible location based on filters.

- Used K-Means clustering algorithm to accurately determine the best rental property in a geographical area.
- Selection of rental property is based on the various filters selected by the user.

TECHNICAL SKILLS

Programming Languages: Python, SQL, C, C++

Packages, Frameworks and Tools: Numpy, Pandas, Sklearn, Pytorch, Tensorflow, Matplotlib

Certifications & Training: Nvidia Fundamentals to Deep Learning, Applications of AI for Anomaly Detection, Applications of AI for Predictive Maintenance
