EDUCATION

- **Bachelor of Engineering in Artificial Intelligence and Data Science** Grad. 2025
Vivekanand Education Society's Institute Of Technology, Chembur CGPA: 9.02
- **Diploma in Computer Engineering** 2022
Vidya Prasarak Mandal's Polytechnic, Thane Percentage: 93.09
- **SSC** 2019
SMT. K. C. Gandhi English School Percentage: 86.00

EXPERIENCE

- **Inventrom Private Limited - Bolt IoT | IoT and ML Developer Intern** Jun 2023 --Jul 2023
Mode: Remote
 - During my internship at Inventrom Private Limited - Bolt IoT, I developed two projects: a Stock Alert System utilizing Bolt IoT for real-time stock market alerts, and a Gesture-Based Home Automation system using Bolt IoT for intuitive control of home appliances.

SKILLS

Languages: Python, C, C++, Java, Javascript

Tools: PowerBI, VScode, Github

Frameworks/Libraries: Node.js, ReactJs, ExpressJs

Mobile Application Development: Java

Cloud: AWS

Technologies: HTML, CSS

Databases: MySQL, SQL, Oracle

Soft Skills(Strong): Leadership, Resourcefulness, Communication, Pressure Management, Time Management, Analytical Thinking, Problem Solving, Self-learning, Presentation, Adaptability

PROJECTS

- **Gesture Based Home Automation | Python** 2023
Hand gesture based home automation
 - Cutting-edge Bolt IoT enabled gesture-controlled home automation.
 - Controlling lights, volume of speakers using different hand gestures.
- **Your AI Buddy | Android, Java, BrainShop AI API, Firebase** 2021-2022
Mental therapy mobile application
 - A user-friendly chat bot
 - "Meditation" feature which helps to meditate while choosing the music depending on user's mood
 - Using "My Goals" feature user can create, edit, delete goals

PROJECTS (SELF INITIATIVE / COMPETITIONS)

•Image Content Segregator | Python, Flask, Web Development, Streamlit

2024

Segregates Image into Visual Element and Text using Google Cloud Vision API and EasyOCR

- Image Content Segregator, allows users to upload images for text extraction and visual element separation
- Users can conveniently copy extracted text and download processed images

•IKrishi | Android Application, Python, ML

2024

Looking Beyond Syllabus (LBS)

- Application provides real-time weather updates and forecast of a week
- Integrated budget calculator for farming expenses
- Quick access to emergency contacts such as NDRF, snake rescuers, etc.
- Quick access to various central/state government schemes for farmers
- System for bird and animal detection with scarecrow beepers

•Global Superstore Sales Dashboard | PowerBI, MS-Excel

2024

Sales dashboard

- Dashboard provides a comprehensive view of SuperStore's sales performance, profitability, customer behavior, and operational efficiency, guiding strategic decisions for growth and improvement.

•E-Waste Facility Locator | HTML, CSS, Javascript, TomTom API

2023

Smart India Hackathon 2023 / SIH 1392

- Application helps locate the nearest e-waste collection and recycling facility
- Book appointment with the e-waste collection and recycling facility
- Option to input the model of user's old device and calculate credit points relative to the amount of precious metals
- Offers articles on the harmful components of e-waste and their effects on the environment, if not disposed correctly

POSITIONS OF RESPONSIBILITY

•Chief Technical Officer(Software)

Aug 2023 - May 2024

VESIT E-Cell

- Spearheaded the development of the E-Cell website and ensured seamless management of all software aspects during our events.
- This role required a balance of technical expertise and organizational leadership to support our initiatives effectively.

CERTIFICATIONS

•IIT Bombay

- Android App using Kotlin
- Python 3.4.3
