EDUCATION

Vivekanand Education Society's Institute of Technology

May 2025

Bachelor of Engineering in Computer Engineering

Mumbai, India

- **Relevant Coursework:** Analysis of Algorithms, Software Engineering, Data Structures, Python, Database Management, Computer Networks, OOP (Java), Operating System.
- **Involvements:** Computer Society of India (SE Operations Officer), VESIT E-Cell (Volunteer)

EXPERIENCE

Project Intern

May. 2024 – Present

VESIT

- Developed a chatbot using Gemini AI to answer regional documents.
- Explored various large language models (LLMs) to enhance chatbot capabilities.
- Aimed to add voice-based output to the chatbot for more interactive user engagement.

Subject Matter Expert

May 2024 – July 2024

Quizzzy

- Worked as a Subject Matter Expert for Mathematics for all standards, solving online mathematics questions.
- Provided good and understandable solutions, ensuring clarity and comprehension for users.
- Demonstrated strong problem-solving abilities through accurate and effective solutions.

PROJECTS

Job Portal Application | Flutter, Firebase Authentication

- Developed a full-stack mobile application using Flutter serving as frontend and Firebase for authentication and real-time database management.
- Implemented secure login and registration using Firebase Authentication.
- Enabled users to view and search for available job listings.

Resume Parser App | Flask, Python

- Created a resume parser app for job seekers to test the ATS (Applicant Tracking System) friendliness of their resumes.
- Implemented functionality to extract specific information from resumes, such as personal details, education, work experience, and skills.
- Allows users to verify if their resumes can be accurately parsed by ATS by showing extracted details.
- Used JSON format for presenting the extracted data, making it easy to review and validate.

Movie Review Application | Flutter, Firebase, TMDB api

- Developed a movie review application using the **TMDB API** to provide users with movie information, reviews, and ratings.
- Integrated TMDB API to fetch detailed movie information, including reviews and ratings.
- Utilized Firebase to store user information and manage movie wish lists, allowing users to save and organize their favorite movies.

TECHNICAL SKILLS

Languages: Java, Python, C, SQL (MySQL), Dart

Frameworks: Flutter, Flask, Material-UI,

Developer Tools: Git, VS Code, Visual Studio, Android Studio, PyCharm

Libraries: pandas, NumPy, Matplotlib, Gemini API
