INDUSTRIAL EXPERIENCE

Web Developer Intern, CPULSER Pvt. Ltd

Dec 2022 - Jan 2023

Designed and developed a comprehensive Inventory Management System using Django encompassing functionalities for suppliers, buyers, products, orders, etc. Developed dynamic reporting tools to generate detailed reports on inventory status. Utilized Django's ORM for backend and MySQL for efficient database management. Implemented various strategies to optimize performance.

EDUCATION

B.E in Computer Engineering

CGPA - 9.17

Vivekanand Education Society's Institute of Technology, Mumbai

Expected 2025

Higher Secondary Education

percentage - 92.69

CHM College, Ulhasnagar, Mumbai

2021

SKILLS

Languages

C, Java, Python

Web Technologies

Html, CSS, JavaScript, React, Node.js, Express

Database

MySQL, MongoDB

Frameworks

Django, Bootstrap, Tailwind

Tools

Git, Postman

PROJECTS

Farm2Fork. (MongoDB | Express | React | Node.js | Tailwind)

Empowers farmers to sell produce directly, ensuring fair compensation. Developed and deployed Farm2Fork, a feature-rich web platform encompassing complete authentication, authorization, payment gateway integration, real-time chat, REST API and dedicated dashboards for customers and farmers. Developed a CNN-based model to predict diseases in fruit and vegetable leaves from images, enhancing agricultural productivity.

TechNest. (MongoDB | Express | React | Node.js | Tailwind)

Implemented a fully functional and responsive ed-tech platform that enables users to create, consume, and rate educational content. Build comprehensive dashboards and integrated payment systems using third-party APIs which enabled instructors to create, manage, and track courses, while students can purchase, view, rate, and review courses, and track their progress.

StudySync. (HTML | CSS | JavaScript | Django | MySQL)

Developed StudySync, a web application to facilitate learning and information exchange. Implemented user account creation and authentication, subject-specific room creation and participation, real-time messaging within rooms, a recent activities log to keep members informed, and a search function for topics and discussions.

Natours. (Express | MongoDB | Node.js | Pug | CSS | JavaScript)

Natours is a booking website where customers can book tours. Key features are comprehensive API for tours and users, including user reviews and ratings, authentication as well as authorization. Integration of functionalities like filters, rate limiting, sorting, pagination as well as data sanitization.

EXTRA-CURRICULAR ACTIVITIES

- CSI- VESIT : Organized various technical workshops and events for 100's of students
- Solved over 150+ DSA problems on Leetcode and GeeksforGeeks combined.
- Participated in hackathon to collaborate closely with a team of 4 to plan, and execute a solution addressing the provided problem statement
