

SYED ILHAM SAHRIYAAR

Kharghar,Navi Mumbai | 91+ 9137522517 | ilhamsyed1310@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

SUMMARY

Ambitious And Motivated Individual who is always striving to learn more about the latest emerging technologies that are helping the world and to gain new experience and knowledge from the people around.

WORK EXPERIENCE

Oil and Natural Gas Corporation(ONGC)

Nov 2023-Jan 2024

- Built a Network Attached Storage(NAS) from scratch and configured it for the local network using Open Media Vault so that multiple devices on the same network can store, access, retrieve and delete the data from the NAS.
- Learned how data backups take place in large organizations and damage mitigation practices.

Indian Society of Technical Education

Oct 2022-June 2023

- Organized various technical and non technical workshops for the students of our college as a Technical officer for the Society.

PROJECTS

CognitiveCare

Tensorflow ,Keras,CNN,Transfer Learning

- A Comprehensive Software for Early Detection and Management of Alzheimer's Disease and Mild Cognitive Impairment (MCI) by building a convolution Neural network to detect and then classify the Disease using the Brain MRI scan.
- Deployed both the models on a full fledge website containing other features such as doctor appointment, MMSE Test and Cognitive games

Alumni Tracking System

Flutter, Firebase

- Created a mobile application to facilitate connections among students, alumni, and the college through features like job portal, blog posting, gallery portal, and discussion forum.
- Integrated multiple interactive modules to support networking, career opportunities, and knowledge sharing within the alumni community.

Network Attached Storage

OpenMediaVault

- Built a Network Attached Storage (NAS) system from scratch using hardware components, ensuring efficient data storage and retrieval.
- Deployed and configured OpenMediaVault for streamlined management and optimal performance of the NAS, enhancing data accessibility and security.

Real Time Video Calling Application

Web RTC,HTML,Tailwind, Javascript

- Developed a real-time video calling web application using WebRTC, enabling high-quality, peer-to-peer audio and video communication with low latency and seamless user experience.

EDUCATION

Bachelor of Engineering in Computer Science with Honors in AIML

CGPA-9.83

Vivekanand Educational Society's Institute of technology , Chembur

Higher Secondary

Percentage-93.2%

DAV Public School,New Panvel

Senior Secondary

Percentage-96.4%

DAV Public School,New Panvel

RESEARCH PUBLICATION

Published Paper Titled : "Cognitive Care-Comprehensive detection And Management of Alzheimer Disease" in UGC Approved Journal.

DOI:20.14118.AJ.2024.V13I5.251

ADDITIONAL INFORMATION

- **Technical Skills:** Jira, MongoDB, React, NodeJs, Programming languages-Java, C++, Python, Android Development using Flutter and Firebase, Deep Learning, SQL and NoSQL databases.
- **Languages:** English, Hindi, Assamese
- **Certifications:** Fundamentals of Deep Learning(Nvidia), Cisco Networking Basics , Mastering Data Structures and Algorithms, The complete theory of Computation
