Kalyan

PROFILE

Final year student of Electronics and Telecommunication Engineering. Self-motivated and eager to learn. Passionate about coding and always looking to learn new skills to improve.

EDUCATION

Bachelors in Electronics and Telecommunication Engineering

November 2022 - present | Chembur, Mumbai

Vivekanand Education society Institute of Technology

- CGPA : 9.44 (Sem VI)

Diploma in Electronics Engineering

August 2019-August 2022 | Matunga, Mumbai

Veermata Jijabai Technological Institute

- Percentage : 88.26

SKILLS

- **Languages** : C++, JavaScript , SQL
- **Technologies/Frameworks** : ReactJs , NodeJs , ExpressJs
- **Tools** : GitHub, MongoDB , MS SQL Server
- **Computer Science** : Data Structures and Algorithm , DBMS

PROJECTS

1. Modern Comfort Furnishing (Node.js, Express.js, MongoDB)

- Designed and developed a scalable and secure e-commerce platform, providing an intuitive user experience for customers to browse and purchase furniture online, with features such as categorized product catalogs and advanced search functionality.
- Implemented a robust authentication and authorization system, enabling customers to manage their accounts and make secure purchases, while administrators can efficiently manage product listings and site content.

2. Smart WheelChair (sensors , C language)

- Designed and implemented an innovative assistive technology system integrating sensors and navigation algorithms for obstacle detection, path memorization, and fall alerts, with SOS messaging and GPS location tracking.
- Developed a user-centered interface that ensures seamless operation and navigation, emphasizing safety and reliability for individuals with physical disabilities.

CERTIFICATION & ACHIEVEMENT

- **Computer Hardware , Operating system and Networking** (Udemy)
- **2nd RankHolder in Electronics and Telecommunication** 2022 - 2023
- **Won Zonal round of Avishkar'23**
