Others: Git, Github, Jenkins, PowerBI

EDUCATION

11/2021-present	Vivekanand Education Society Institute of Technology B.E. Information Technology: CGPA: 9.43 B.E. Honors AIML	Mumbai, India
07/2019-02/2021	R.V. Nerurkar College HSC: Grade: 91.16%	Mumbai, India
03/2019	Model English School SSC: Grade: 86.80%	Mumbai, India

EXPERIENCE

08/2023 - present	VESIT Railway <code>php</code> / <code>codeigniter</code> / <code>Filezilla</code>  vesitrail.ves.ac.in	
Developer and Technical Assistant	- Part of the technical team for the college's Railway ticket concession website, database handling and solving issues, admin work and enhancing website. - Implemented PDF name authentication using Angular, enforced PDF requirement for registration, and prevented duplicate registrations. - Approve and rejection of applications and automate emails from Admin side. - Implemented features like integrated Show Password, logout, and college reopening logic. - Added PDF viewing in "Edit User" feature. - Developed reupload PDF feature and PDF deletion from admin side. - Validated each attribute on the registration page.	

PROJECTS

Python, matplotlib, Pywhatkit	Expense Tracker  Github Link	
Developed expense tracker using Python, allowing user input via dropdown menus and keep track of their expense daily, weekly, monthly. With the help of pywhatkit user's otp is sent on their whatsapp chat. Visualized data using pie charts for quick insights.		
React.js, MongoDB, Newsletter API	Instify  Github Link	
Instify is a React and MongoDB-based social media platform integrating a music player, Instagram-style, Inshorts-inspired news snippets, and a versatile chat/post interface. Offering multiple account support, Instify combines diverse functionalities into a seamless, user-friendly experience. Third-party API integrations enhance content variety, making Instify a one-stop solution for music, news, and social interaction.		
Java, MySQL	MCQ test conducting Applet  Github Link	
MCQ test applet in Java, featuring a user-friendly GUI for interactive quizzes, real-time user responses, and automatic scoring. Enhanced Java programming skills while developing an engaging educational tool.
