

Madhura Gaval

I am a final-year computer science student also pursuing Honours degree in data science. Throughout my academic career, I have developed strong analytical skills and a comprehensive understanding of both the theoretical and practical aspects of computer science. I am skilled in problem-solving and have successfully completed various projects, showcasing my ability to effectively apply my knowledge in real-world situations.

SKILLS

- JAVA.
- Object Oriented Programming.
- Data Structure.
- MySQL Database.
- JavaScript, HTML, CSS

CERTIFICATIONS

- Complete Java with Desktop App, Web App and Data Structures.
- Python with Data Structures, Data Bases and Data Science.

LANGUAGES

English, Hindi, Marathi: First Language

EXTRA CURRICULAR

- Senior Operations Officer, CSI-VESIT 2023-24.
- Class Representative for session 2023-24.
- Junior Operations Officer, CSI-VESIT 2022-23.
- Cultural Incharge for session 2022-23.
- Music Incharge for session 2021-22.
- Kathak Performance under Guinness World Records in

EDUCATION

B Tech Computer Science Engineering

VES Institute of Technology - Mumbai

2021 - Present

CGPA : 9.08 (SEM 6)

HSC

Shri Shivaji Science College - Amravati

- 2019-2021
- Percentage : 95

SSC

School of Scholars - Amravati

- 2019
- Percentage : 90.6

EXPERIENCE

Intern Java Developer

MIRA Advanced Engineering

- 06/2023 - 07/2023
- I have developed robust web applications using Java technologies such as JSP, Servlets, JDBC, JavaScript, and MySQL. Notable among these are:
 - **Student Management System:** Designed to efficiently manage student records, this application includes features like user authentication, CRUD operations for updating student information, and robust data management capabilities using MySQL.
 - **Feedback Website:** This dynamic platform facilitates the collection and analysis of user feedback. Utilizing Java Servlets and JSP, users can easily submit feedback.

Intern Python Developer

Trivia Softwares

- 02/2023 - 05/2023
- **Employee Management System:**
 - I developed an Employee Management System using Python and SQLite3, utilizing its efficient data storage for seamless handling of employee records.
 - The system supports CRUD operations, allowing easy management of employee information through creation, retrieval, updating, and deletion.

PROJECTS

- Congenital Heart Disease Prediction using Artificial Intelligence.
- Text to Audio Converter using JavaScript, HTML, CSS.
- Weather App using JavaScript, HTML, CSS.
- Library Management System (JavaScript, HTML, CSS, MySQL).
